Indore, MP

SUMMARY

Passionate Full Stack Developer with overAll 1 year of professional experience specializing in Reactjs, Node.js, Express.js, and MongoDB. Strong backend foundation with expertise in REST APIs, authentication, and database design. Quick learner with solid problem-solving and collaboration skills. Eager to contribute to innovative projects in a fast-paced environment.

EXPERIENCE

- **Mindiii System Pvt Ltd [⊕]**   *OCT 2024 – JUN 2025*
  Junior Software Engineer   Indore, India
  - **Dovies Fitness Project**
    * Designed and developed the backend system for the Admin module, including workout and exercise management.
    * Implemented secure JWT-based authentication and optimized MongoDB queries for efficient real-time data handling.
    * Created CRUD with filtering, pagination, and search functionality for exercise and workout modules.
  - **Property Deal Project**
    * Worked on Full Stack MERN application to manage properties, users, and bookings.
    * Created CRUD with filtering, pagination, and search functionality for Property, User and Booking modules.
    * Developed and maintained scalable backend systems using React.js, Node.js, Express.js, and MongoDB.
    * Built OTP-based email verification system using SendGrid and Node.js for secure user authentication.
    * Implemented mobile SMS alerts using Twilio to notify users, enhancing user engagement and transaction tracking.
    * Developed Chart.js Pie Chart in the admin panel to display real-time stats like total users, inquiries, bookings, and properties.
    * Integrated Google Maps API with autocomplete and marker display to show selected localities based on city.
    * Implemented Google OAuth 2.0 Login to allow users to securely sign in using their Google accounts, enhancing authentication flexibility and user experience.
    * Optimized RESTful APIs using MongoDB Aggregation Pipelines and Mongoose schema design.
    * Collaborated with frontend developers and cross-functional teams for full-stack development and seamless API integration.

- **Mxpertz Infolabs[⊕]**   *JUN 2024 - SEPT 2024*
  Full Stack Developer Intern   Indore,MP
  - **Travel Booking App**
    * Developed a full-stack travel booking platform allowing users to browse, book, and manage holiday packages with real-time availability.
    * Implemented secure user authentication and role-based access using JWT and bcrypt for admins and customers.
    * Created admin dashboard to manage packages, bookings, user inquiries, and travel itineraries.
    * Integrated Google Maps API to visualize tour locations and provide geolocation features.
    * Built dynamic booking forms with date selection, traveler details, and online payment support (e.g. Razorpay).
    * Designed scalable RESTful APIs using Node.js, Express.js, and MongoDB for high-performance backend services.
    * Applied filtering, sorting, and search features for travel packages using MongoDB aggregation pipeline.
    * Enabled booking confirmation and transactional emails using SendGrid.

EDUCATION

- **Arihant College, Davv University**   *AUG 2021 - AUG 2024*
  Bachelor's of Computer Application in Computer Science (BCA)   Indore, India
  - GPA: 7.2

SKILLS

- **Programming Languages:** C++, Javascript, SQL, DSA
- **Web Technologies:** Reactjs, Redux, Nodejs, Expressjs, Html, Css, Bootstrap, Ajax
- **Database Systems:** MondoDb, Mysql
- **Cloud Services:** AWS (EC2, S3, ECS, Lambda) , GCP
- **DevOps & Tools:** Postman, Git, Docker, CI/CD, Ngnix, PM2, Redis, Cache
